## License Plate Overview

Any vehicle operating on the streets or highways in the State of Tennessee is required to be registered and display a license plate. The Department of Revenue (the “Department”) administers title and registration in Tennessee, with the 95 county clerks acting as its deputies. With a few exceptions, application for registration and license plate issuance is made through the office of the county clerk of the county of the owner’s residence or the county wherein the vehicle is based or is to be operated.

The Certificate of Registration or a digital copy of the registration should be available in the vehicle at all times as evidence of current registration.

The fees outlined in this publication account for state registration fees only. County fees are also applied to a registration transaction, including any applicable wheel taxes.

### Temporary Permits

Temporary operation permits (TOP) may be issued to motor vehicle owners desiring to operate a vehicle otherwise subject to registration for a period of thirty (30) days when the owner is unable to obtain a new registration or renew a previous registration for the vehicle. One (1) additional TOP may be issued to such owner for a period of thirty (30) days if the owner is unable to resolve the original issue during the previous thirty (30) day period.

For individuals purchasing a vehicle from a licensed dealer, a TOP may be assigned by the dealership. These are commonly known as “Dealer Drive-out Tags” and are computer generated through our EZ-Tag tag program. These are valid for a period of sixty (60) days. (<https://www.tn.gov/revenue/title-and-registration/ez-dealer-tags.html>).

When a vehicle is purchased from an individual (casual and isolated sale) and will be transported to the county clerk's office to be registered or the title is not available for timely registration, or for out-of-state residents purchasing a vehicle and transporting it, individuals may apply for a TOP through their local county clerk's office.

## Personalized Plates

The standard Class A passenger plate and certain special license plates for vehicles (cars, station wagons, vans, pick-up trucks up to 3/4 ton rating and 9,000 pounds or less in weight, trailers, and motor homes of any size) and motorcycles can be personalized. In addition to the regular state registration fee and any applicable county fees and/or specialty plate fees, the cost to personalize a plate is \$35.

All revenues produced from the sale or renewal of personalized plates, after deducting the expense the Department has incurred in designing, manufacturing and marketing the plates, are allocated to the Tennessee Arts Commission. Funds received from the sale of personalized trailer plates are earmarked for the development and maintenance of public horseback riding trails.

Please see the index of this publication for plates with personalization available.

## Antique/Vintage Plates

*Tenn. Code Ann. §§ 55-4-202, 55-4-203(a), 55-4-204(a), 55-4-201, and 55-4-114(b)*

**Who Qualifies:** A person may register a vehicle as an “antique motor vehicle” providing that certain requirements are satisfied. The vehicle, 1) must be a motor vehicle over twenty-five (25) years old and have a non-modified engine and body, 2) can be used for participation in, or transportation to and from, club activities, exhibits, tours, parades, and similar uses as a collector’s item, 3) can only be used for general transportation on Saturdays, Sundays, and federal holidays, and 4) can be used on any day for the purpose of selling, vehicle testing, or obtaining repairs to or doing maintenance on the vehicle. Both cars and motorcycles may be considered antique motor vehicles. The registration is a permanent registration and is not required to be renewed annually. Once assigned, the license plate cannot be reassigned to another vehicle.

Instead of registering a qualifying antique vehicle with a standard antique motor vehicle plate, a person may choose to register an antique motor vehicle with an official vintage Tennessee license plate of the era when the vehicle was manufactured, and may display that license plate as their official Tennessee vehicle registration on the rear of the vehicle instead of registering for a new license plate. Provisions for vintage plates also apply to motorcycles.

**Fees:** Fees associated with these plates are cited in Tenn. Code. Ann. §§ 55-4-103(f)(2), 55-4-103(f)(3), 55-4-132(a), and 55-4-111(a)(1)(Class (C)).

## Trailer Plates

*Tenn. Code Ann. § 55-4-111 (Class (D))*

A trailer is a vehicle that is not self-propelled and is dependent upon being attached to or pulled by a self-propelled vehicle in order to operate on the road. Not every trailer is required to be registered. Registration requirements are determined by the trailer type, purpose, usage and/or size.

There are three different trailer registration plates.

- Trailer E, which can be personalized
- Trailer E 10 year (for rental trailers)
- Semi-Trailer

Funds received from the sale of personalized trailer plates are earmarked for the development and maintenance of public horseback riding trails.

## How to Introduce a New Plate

This section refers to the steps involved in establishing a new Tennessee license plate by statute. There are four primary categories of plates:

- Cultural, Specialty Earmarked and New Specialty Earmarked (funds resulting from the sale of these plates are allocated or earmarked to private organizations or to special government funds where the use of the monies may be restricted to certain expenditures)
- Emergency
- Special Purpose (these plates have strict requirements for issuance with no minimum required)
- Memorial/Military

Plates authorized by statute begin in the Tennessee General Assembly when a member of the Senate or House of Representatives proposes legislation to be discussed and voted on. For categories other than Cultural/Specialty Earmarked, the law is written one of two ways:

1. The law will instruct as to the exact design, OR
2. The law requires the plate be designed in consultation with the certain agencies or designees of those agencies.

**Note: Design instruction should not include direction as to any aspect of configuration or stacked characters, as these elements are dictated by many factors such as other available configurations or formats currently in circulation.**

### *Introducing a Collegiate Plate*

Collegiate plates have a special reference to or identification of a two-year or four-year college or university located within Tennessee or four-year college or university located outside of Tennessee. Colleges/Universities do not have to go through the process of introducing a plate through legislation unless the institution desires funds to be allocated to a non-profit organization, in which case the steps for introducing a new Earmarked plate should be followed.

- For colleges/universities located inside of Tennessee – Prior to initial issuance, the signatures and payment for a minimum of 100 plate pre-orders (\$35 per plate) along with plate design artwork should be sent to the Department of Revenue, Vehicle Services Division at 500 Deaderick St., Nashville, TN 37243.
- For colleges/universities located outside of Tennessee – Prior to initial issuance, the signatures and payment for a minimum of 1,000 plate pre-orders (\$35 per plate) along with plate design artwork should be sent to the Department of Revenue, Vehicle Services Division at 500 Deaderick St., Nashville, TN 37243.

Please see the following section for guidance on the process involved for introducing a new Cultural or Specialty Earmarked Plate.

### *Introducing a New Cultural or Specialty Earmarked Plate*

To establish a specialty license plate in support of an organization, the Department advises the following:

1. Contact your state legislator to have a bill for the plate introduced.
2. If the bill passes, your organization's contact person must contact the Department, at [dg\\_plate&supply.team@tn.gov](mailto:dg_plate&supply.team@tn.gov), and provide the following information:
  - Plate Name
  - Organization Name
  - Contact Name
  - Contact Number
  - Mailing Address
  - E-mail Address
3. Once the above information is received, the Department will send the organization the following information:
  - Specifications for the artwork
  - Template for license plate
  - Template for names collected for the initial order
  - General process information
4. The organization has until close of business on June 30 of the following year to complete the following
  - Collect names and addresses for the initial plate order
  - Assign plate numbers to the names collected
  - Design artwork
  - Mail all of the above with a check payable to the Department to: Department of Revenue, Vehicle Services Division, 500 Deaderick St., Nashville, TN 37243.

*NOTE:* If an organization cannot collect the names and money required for the initial order in this amount of time, it must request an extension through the current legislative session before the June 30 deadline. The organization is responsible for contacting the legislator who initiated the bill to request the extension, which must be approved by the legislature.

5. Once payment, names and artwork are submitted to the Department, it takes approximately four to six months before the plate is produced. Prior to plate production, metal samples will be produced for the organization to sign off on. The plate will also undergo system and road tests.
6. Upon approval and the completion of testing, plates are produced and mailed to county clerk offices. Letters are mailed to customers who placed initial orders to let them know when their assigned plates will be in their local county clerk's office.
